

MAY AGREE ON RATE BILL

Outlook Is Considered More Encouraging

PRLSIDENT'S ITION

Hope That He Will Give Knox Compromise His Support—Mr. Crane Is Struggling to Round up the Radicals.

Washington, March 14.—Business-like Republican senators, who are eager to bring about an agreement between the Republican majority and the President on the railroad rate controversy, feel much encouraged by the outlook. They feel sure that they have enough votes in the Senate to put the Knox amendment, as modified by Mr. Spooner, into the Hepburn bill. This is a middle-ground proposal, for which the conservatives would be yielding as much from their original programme as the President. As thus amended the bill would be constitutional in its court review provisions, whereas without such a change many of the best lawyers believe the whole campaign for railroad regulation would be rendered inoperative by the collapse of the Hepburn bill in the courts.

The amendment, as perfected by Mr. Spooner, provides that where the court grants an injunction the carrier would have to give bond for the amounts collected in excess of the commission's findings, or else pay the sum at issue into court pending judicial settlement of the case. This is an extremely reasonable proposal, and seems to be gaining headway in the Senate. Mr. Crane, who is leading the efforts to secure a suitable compromise, is looking to get the group of more radical Republicans to agree to this. The chances are that if this scheme of judicial review is accepted, as the settlement of the question, that it will command nearly solid Republican support. Much depends on the President, however, and he has not yielded although professing to desire only what is reasonable. Friends of this compromise, therefore, believe it will eventually win his support, and they are working toward that end. This week is not a favorable time for final settlement, because so many special bills designed for the edification of constituencies remain to be made. No date for voting on the bill has yet been fixed, but the Republican leaders are proceeding to solidify their ranks on the court review compromise, with a view to putting it through, in the hope that at last the President will see the reasonableness of it, and join in putting it on the statute books.

Vinol is fast superseding old-fashioned cod liver oil and emulsions because, without a drop of oil or disagreeable feature, it contains all the medicinal elements of cod liver oil, actually taken from fresh cods' livers. By our process the oil, having no value either as a medicine or food, is separated from the medicinal elements and thrown away. Unlike old-fashioned cod liver oil and emulsions, Vinol is deliciously palatable, agreeable to the weakest stomach, and therefore unequalled as a body builder and strength creator for old people, puny children, weak, run-down men and women, after sickness, and for all pulmonary diseases. Everything Vinol contains is named on the label.

OUR GUARANTEE.—We have such faith in VINOL that if you take it we promise if it does not benefit or cure you we will return your money without question. We take all the risk.

DEFENDS RATE BILL.

Senator Simmons of North Carolina Upholds Its Constitutionality.

Washington, March 14.—Senator Simmons of North Carolina yesterday addressed the Senate on the rate bill. He gave practically all his attention to the right of Congress to confer upon the interstate commerce commission the power to fix rates—contending that such a right exists, beyond question. He asserted, contrary to the contentions of Mr. Lodge, Mr. Foraker and other opponents of the pending message, that "existing transportation rates are in many instances unjust and unreasonably high, and that unfair and vicious discriminations are practiced against individuals and localities."

The speaker said he did not believe the present tendency of rates is upward. His special complaint was of the favoritism shown to the big shippers. He hoped that the majority of both the railroad and the big shippers would be restrained.

Mr. Simmons concluded with an argument in support of the constitutionality of the proposed law, on which point he declared he had no doubt.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells how Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

"I have been a sufferer for the past eight years with a trouble which first originated from painful periods—the pains were excruciating, with inflammation and ulceration of the female organs. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D. C.

Her second letter:

"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 604 and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—'I saved her life.'

Mrs. Pinkham has on file thousands of just such letters as the above, and offers alluring women helpful advice.

PARSONS TALKS ON CANAL.

Engineer Tells Senate Why He Opposes the Lock Scheme.

Washington, March 14.—William Barclay Parsons of New York, a member of the consulting engineers, which reported on the type of canal feasible to be constructed across the isthmus of Panama, yesterday testified before the Senate committee on interoceanic canals. He is an advocate of the sea level plan and a signer of the majority report. The committee examined him concerning his objections to the lock type, proposed by the minority.

WEAK NEW YORK SENATORS.

Both Seem to Be in a Very Bad Physical Condition.

Washington, March 14.—Senator Dewey's unexplained absence from the Capitol, following some sadly significant developments, has led to the belief that his resignation from the Senate will be no longer delayed if his real friends can influence him. It has been currently reported for some days that he had gone to a sanatorium, but this has been denied by his family, who assert that he is only resting. For some weeks the senator was accompanied in all his steps by an attendant, even in and out of the Senate chamber. He had previously made an effort to alight from an electric car, moving at full speed in a way that carried consternation to other passengers. The situation is pathetic in the extreme. Senator Platt, his colleague, while his mind seems perfectly clear, finds extreme difficulty in walking and goes about the Senate upon the arm of an attendant. New York's representation in the debate of great questions before the present Congress is singularly weak and the demand expressed by some newspapers of the Senate for two new senators should in reason be met.

REBUKE ADMIRAL BROWNSON.

Hazing Investigators Censure Former Head of Annapolis.

Washington, March 14.—The subcommittee named by the House committee on naval affairs to investigate hazing at Annapolis made its report to the whole committee this morning through Representative Vreeland of New York, chairman of the investigating committee.

Rear Admiral Brownson is censured in the report for exacting a pledge from midshipmen not to engage in hazing and for allowing the boys to think that the pledge was personal to him, and did not hold after Rear Admiral Sands became superintendent at Annapolis. Lieutenant C. P. Snyder is also mildly censured for hazing countenancing hazing.

SENATE PASSES LONFELLOW BILL.

Appropriates \$4,000 for Pedestal for a Monument in Washington.

Washington, March 14.—The Senate passed yesterday the joint resolution of Senator Crane's appropriating a site for a monument to Henry Wadsworth Longfellow in this city, and \$4,000 for the pedestal.

FIGHT INDIAN OUTLAWS

Strong Posse Takes the Trail of the Wickliffe Brothers.

FEAR OF OTHERS JOINING

Desperadoes Are Members of the Night Hawk Band, Which Has Been Discontented Since Land Allotments Began.

Vinita, I. T., March 14.—One hundred armed men have gone into the Cherokee country in pursuit of the Wickliffe band of Indian outlaws who on Sunday afternoon, thirty-one miles southeast of here, ambushed a United States marshal's posse of six men, killing Deputy Marshal I. L. Gilstrap and wounding Richard Carey, another deputy.

Bob Thompson arrived Monday night from the scene of the fight at Saline Creek. He says that the posse, after trailing the Wickliffes all day with bloodhounds, came upon them in the afternoon, whereupon the Indians, eleven in number, took refuge in a ravine and opened fire. The deputies threw themselves upon the ground and a hot fight began, which lasted an hour. Deputy Gilstrap was shot through the head at the first exchange of shots.

The deputies were driven gradually back to the head of the ravine, but finally formed a breastwork, and the Indians withdrew.

Gilstrap's body was brought in here Monday morning by his widow, who had driven through the hills forty miles with it. Carey is still alive, but it is believed he cannot recover.

DRUGGED AND ROBBED.

Bridgeport Woman Found in New York Unconscious.

New York, March 14.—A woman who describes herself as Mrs. Dora Smith, aged 35 years, the wife of a Bridgeport, Conn., hotel man, is in a serious condition at Bellevue hospital, suffering from what is believed to be strychnine poisoning. Mrs. Smith was found early yesterday lying on the sidewalk at First avenue and First street. When she had been partially revived at the hospital, she said that she came to New York to visit friends who live in Tenth street. She was unable to describe the happenings just before she was found on the sidewalk, but told the hospital authorities that she had been given poison and that her money and jewelry had been taken from her.

CRIPPLED HANDS AND FEET

Marvellous Cure of Rheumatism by MINARD'S LINIMENT

"Four years ago I was taken with rheumatism. I lost the use of my hands and had to go to the hospital, but did not get any relief. I also had in my limbs and body and could not walk for six months. I was a patient in the Homeopathic Hospital, the Emergency Hospital, and the New England Hospital, and did not get any relief from any of them. I also went to the Fourth Grade Hospital in New York. Some of Boston's best physicians attended me and still I found no relief. For three years I could not do any work at all, but for the last year, since using Minard's Liniment, I am able to do all my household work. I think that I know the worth of Minard's Liniment better than any person who has ever suffered with rheumatism. Hundreds of people who know of my suffering give Minard's Liniment the praise. I wish that every one knew the worth of this Liniment as I do. Yours truly, Mrs. Emma B. Williams, 62 Sawyer St., Boston."

PERMITTED TO LAND.

Eloping Wife, Deserted in Germany, Returns Home.

New York, March 14.—Mrs. Margaret Seide, pretty, well-dressed and 22 years old, who says she is the wife of a wealthy real estate broker of Philadelphia, and that she eloped from him with a traveling salesman, who took her to Germany two months ago and there deserted her, was yesterday permitted to land from Ellis island by the immigration authorities. She returned from Germany yesterday, being sent back here by the American consul general in Berlin, to whom she appealed when her companion deserted her. She made the passage in the steamer with several hundred immigrants.

Mrs. Seide said that she left her husband just after New Year's. Why, she refused to say, and she also refused to give his first name and address. Mrs. Seide said she intends to return to her parents at once. She went to Philadelphia.

Bakers' Marks

There is a story of an old lady who made up a batch of mince and apple pies. Wishing to be able to distinguish one kind from the other she marked the mince pies **T M** for "tis mince" and the apple pies **T M** for "taint mince."

The baker's marks on the ordinary run of bakery products are of little more value for purposes of identification than the marks on the old lady's pies.

But **HERE** is a trade mark that really identifies—that enables you to distinguish the world's best baking—the Biscuit, Crackers and Wafers made by the **NATIONAL BISCUIT COMPANY**. This trade mark appearing in red and white on each end of a package guarantees the contents to be of highest quality—pure, clean and fresh. To learn something of what this trade mark means try a package of either of the products mentioned below.

Body, Found in a Canal.

Newark, N. J., March 14.—The police believe they have a Mafia murder on their hands, for yesterday morning a body of a man was found in the Morris canal, at the foot of Grafton avenue. It had been weighted down by a heavy stone tied around the waist. The throat had been cut, and there were several bullet wounds. On the opposite bank of the canal a short distance away is an Italian colony, and detectives are there trying to have the victim identified and to run down the murderer.

The murder was probably committed about 9 o'clock Monday night, as pistol shots were heard at that hour, and
